

We are so excited!! Liberty is coming to CT!

For the first time in CT's recent history, people are gathering to map out a plan to save our Constitutional rights. Not since the 1700's, when the colonists gathered together in taverns to discuss the formation and ratification of the Constitution, have citizens felt the need to gather together once again to discuss Constitutional issues. This time, they are gathering to discuss how to stop the destruction of the Constitution.

On **September 27 and 28, 2008**, some of the most pre-eminent people in their field, leaders in the fight against erosion of our Constitutional rights from all across the country, will be gathering at the **Bristol Clarion Hotel** for **Connecticut's First Annual Liberty Forum**. They will be holding workshops addressing every aspect of our Constitution, including but not limited to erosion in the areas of freedom of speech, eminent domain, U.S. sovereignty, and parental rights.

The purpose of the forum is to promote liberty, to increase education concerning our Constitutional rights, and to create a call to action to protect those rights.
